PROFESSIONAL EXPERIENCE

Jr. Flutter Developer — Join Venture AI, Dhaka, Bangladesh | Nov 2025 – Present

- Developed and published 4 commercial Flutter applications for Android and iOS, taking each from Figma design through to store release.
- Built maintainable, testable modules using MVVM/MVC architecture with Riverpod Generator and GetX for state management.
- Integrated REST APIs using Dio, including authentication flows, interceptors, token refresh, and centralized error handling.
- Owned testing, debugging, and release preparation for Play Store and App Store submissions; recognized as Employee of the Month.

Flutter Developer Intern — Aricho IT, Khulna, Bangladesh | Apr 2025 – Oct 2025

- Built responsive Flutter interfaces from Figma designs across a range of mobile screen sizes.
- Integrated REST APIs using Dio and HTTP with structured, reusable error-handling patterns.
- Developed reusable widget components and supported debugging, performance optimization, and pre-release QA.

PROJECTS
